### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with M. Scalise on 5/14/07.

The application has been amended as follows:

**In the claims:**

Non-elected claims 1,3-10, 12-18, and 32 have been canceled.

CI 19, In 16: the phrase --to thereby form an electrode active structure-- has been inserted after "the first structure".

2. The following is an examiner's statement of reasons for allowance: the prior art of record neither teaches nor renders obvious all of the claimed limitations including calendaring the first structure into a second structure having a second thickness less than the first thickness by contacting the electrode admixture in a second direction having the first structure rotated bottom over top with respect to the orientation that formed the first structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
